Health Program Requirements:

- Vaccinated and boosted for IBR, PI3, BRSV, & BVD. 1st Shot: Inforce 3 Nasal Vaccine + One Shot BVD. 2nd Shot: Bovishield Gold 5
- Vaccinated for mannheimia hemolytica (pasteurella) using: One Shot
- Vaccinated twice for clostridia (blackleg) using: Ultrabac7. Booster for Blackleg (clostridia) not required if calves were vaccinated early in life.
- Dewormed with Valbazen Oral Wormer at 1st round. Dewormed with Dectomax a maximum of 60 days prior to sale at 2nd round.

Management Requirements

- Owned by seller minimum of 60 days
- Horns: All cattle will be dehorned, smooth headed and healed or polled. No exceptions!
- Males castrated and healed (knife castration is strongly recommended). Late castrated calves may lead to stags, which are discounts. The scrotal sac with testicles must have fallen off "banded" calves.
- Trained to eat feed from a bunk and drink water from a trough. Do not overfeed! Fleshy calves should be avoided and are likely to be discounted.
- Calves must have access to a free choice salt and mineral supplement which contains a minimum of 1,400ppm copper (not oxide), 26ppm selenium, 3,000ppm zinc, 3,000ppm manganese, and salt content of less than 25%. No other salt available.

Other Requirements

• Must complete, sign and send Washington County Livestock Center the sale certification form regarding name of vaccine, lot or serial number, dates and location of administration, and also the producer needs to attach the purchase receipts of vaccines.

• Administration of vaccines:

1. Use the neck area for intramuscular injections
2. Use subcutaneous injection if labeled on product, which should also be given in the neck area
3. Follow label directions and handle vaccines properl

- CPH ear tags are required on all cattle. Tags can be ordered from the Kentucky Beef Network (859-278- 0899)
- Heifers are guaranteed open at time of sale and steers are guaranteed not to be bulls/stags. Seller agrees to reimburse buyer \$200.0 for pregnant heifers or bulls/stags. All claims must be properly verified by a veterinarian within four (4) months of sale.

REQUIRED: (For CPH45 Certification) I observed the cattle represented on this certificate on farm and they are weaned, eating feed from a bunk and drinking water from a trough.

Signature of County Extension Agent

Date

REQUIRED: These cattle have been preconditioned to the above recommendations to the best of my ability and knowledge, and the above information is true and accurate.

Signature of Owner

Date

OPTIONAL (owners are responsible for checking and adhering to local state requirements): I have a valid veterinarian-client-patient relationship with the cattle and their owner and certify this record to be accurate
